

## Private Group Tasting Experiences

Foreign Affair Winery offers private tasting experiences for **groups of 6 people or more**. Please see below for our tasting options and contact us for availability and to reserve your space.

Foreign Affair Winery is known for making big, bold red and elegant white wines. Proprietors Len and Marisa Crispino are pioneers in making appassimento wines in Canada. The process of making an appassimento wine means that at harvest the grape bunches are placed on racks for drying for two to six months. That allows some of the water to evaporate which produces a more rich and full bodied wine.
